TRIBAL C - VASE

Cod: 03001C

The Tribal C vase is a glazed ceramic object with a strong identity that evokes archetypal figures and ancient deities linked to the worship of Mother Earth and its elements. As if it had emerged from an archaeology of memory of a recent past, it presents itself as a new fetish for contemporary tribes, a symbol of good omen and protection for new ways of living, in the need for a renewed rituality to mark the passage and preserve the dialogue between our earthly roots and the near future.
